**<u>'United in life-Long Learning'</u>** 

# Personal, Social, Healthy, Citizenship and Economic Education (PSHE)

"It is vital that when educating our children's brains, we do not neglect to educate their hearts."

## -Dalai Lama

# **MISSION STATEMENT**

At Westgate Primary School our aim is to teach to inspire, motivate and nurture the next generation of creative and critical thinkers. We work in partnership with parents and the community to achieve the highest standards. Our main goal is to nurture independent and resilient learners, promoting kindness and tolerance throughout school life and beyond. We embrace all children as unique individuals, creating responsible and trusting members of the community. Through stimulating, safe learning environments and excellent opportunities to succeed in and out of the classroom, we encourage children's progress and achievements.

At Westgate, Personal, Social, Health, Citizenship and Economic Education (PSHE) is at the centre of all that we do. Through our entire curriculum, our school environment and ethos, we promote pupils' self-esteem and emotional well-being and support their journey to forming and maintaining worthwhile and satisfying relationships, based on respect for themselves and other, at home, at school, at work and in the community.

#### <u>Aims</u>

The aims of PSHE are to enable the children to develop the skills, knowledge, understanding and attitudes they need to be able:

- 1. To have respect for themselves and others, valuing the differences and similarities between people;
- 2. To develop good relationships with other members of the school and wider community;
- 3. To be independent, self-disciplined and responsible members of society;
- 4. To be positive and active members of a democratic society;
- 5. To develop self-confidence and self-esteem, and make informed choices regarding personal and social issues;
- 6. To know and understand what constitutes a healthy lifestyle;
- 7. Children will be aware of safety issues and manage risk in their own lives.
- 8. To be aware of potential risks in the online world and how best we can stay safe.

The aims within the PSHE curriculum meet the needs of every individual child and through the teaching of the subject and the overarching vision of the school; learning is tailored to meet the needs of children.

Our PSHE education programme promotes the school values.

We promote the needs and interests of all pupils, irrespective of gender, culture, ability or personal circumstance by ensuring the curriculum and learning is tailored for every individual child. Allowances will be made for children who may be classed as vulnerable or for potentially sensitive issues. Teaching will take into account the age, ability, readiness, and cultural backgrounds of children (and those with English as a second language) to ensure that all can fully access PSHE education provision. We expect our pupils to consider others' needs by following the school's vision and values of Respect, reminding them of this and promoting the correct and sensitive behaviour. We will use PSHE education as a way to address diversity issues and to ensure equality for all.

We recognise the right for all pupils to have access to PSHE education learning which meets their needs. We will use a scheme of work which best suits our children, decided through consultation with PSHE advisors, the subject coordinator and the head teacher. We will ensure that pupils with SEND receive access to PSHE through differentiation of work and access to lessons and objectives suitable for their ability and maturity, as well as their understanding.

#### Curriculum organisation

# Principles-

PSHE education needs to consider pupils' starting points. Pupils will bring differing levels of knowledge and understanding to any issue explored through PSHE education. Often this prior learning is more complex than we might assume. New topics in PSHE education should start by determining pupils' prior knowledge.

# Westgate Primary School Planning and timetabling

1. Every class has a timetabled session of PSHE every week. This lesson will follow the planned PSHE Scheme of Work. Through this scheme of work, we cover the New National Curriculum guidance for PSHE. To ensure young people get the very best teaching in these areas we have chosen to use an award-winning resource called 1decision. This has been kitemarked by the PSHE Association and has been quality assured. The 1decision resources have been developed over the past nine years and each module has been created by PSHE and Safeguarding experts together with schools, and most importantly children, and can proudly say they are providing resources to schools in 39 counties. As a school we are proud to say we will be using these resources and you may like to find out more about them by visiting their website: www.1decision.co.uk

2. In addition to this, PSHE is also taught within other subject areas and as part of cross curricular projects: Science, Geography, RE, English and History.

3. PSHE will also be addressed on a daily basis as questions and incidents arise. At times, teachers may choose to hold an additional Circle-time session in response to a particular event or issue.

4. Whole school and class assemblies provide opportunities to enhance pupils' spiritual, moral, social and cultural development, promoting our school's values and celebrating achievement.

#### Below is a copy of our school progression annual overview, adapted from 1decision.

Each half term you will be provided with a medium term plan. You will need to use the topic guide and film clip for the topic, to create you lesson plans and smartboards.

Teaching and learning strategies

1. A range of teaching and learning strategies are used:

2. During timetabled PSHE time, an emphasis is placed on active learning through planned discussions, Circle-time, investigations, role-play activities, brainstorming, hot seating, mind mapping, responding to a scenario, puppets, group-work and problem-solving.

3. All teachers will endeavour to provide a safe learning environment through the establishment of clear Ground Rules which are made explicit to the children and reinforced consistently.

4. Visiting speakers such as the police and health workers also contribute to the taught curriculum.

5. Beyond timetabled PSHE lessons, pupils are supported in applying the skills they are learning, in real-life situations as they arise: e.g. resolving conflicts; working a part of a group on a project.

6. Children, are encouraged to take part in a range of practical activities to promote active citizenship, e.g. charity fund-raising; the planning of special events at school; making class rules; school council meetings, and by taking on roles of responsibility for themselves, for others and for the school.

## Answering Children's Questions

1. We are aware that children are likely to have many questions that may occur at any time. Children tend to ask whatever is on their mind. We see this as a positive point and a sign that we have created a safe environment where children feel empowered to feed their natural curiosity and learn about themselves, their bodies and the world around them. However, we acknowledge that some parents may feel uncomfortable about how particular questions may be dealt with in class.

2. We believe children are better off receiving honest, open answers from safe adults in their lives, rather than it being left to the internet or older children with a smart phone. In the age of information, where children in primary have access to tablets, smart phones and the internet (often unsupervised) it is essential that we help children to recognise they are able to ask questions without judgement rather than searching for answers on the internet.

3. By tackling the topic in a matter of fact manner, without embarrassment means that we take the mystic allure out of the topic, making sex no longer the secret taboo. However uncomfortable a proposition that may be, it is far better than the alternative. For children these questions are not rude, they are simply signs of a healthy and natural curiosity.

4. We believe that if children ask a question they deserve an answer. If ignored they merely build unnecessary barriers, making children think they have done something wrong; they are unlikely to ask again, and are instead left to seek their answers from less reliable or child friendly sources, due to shame. However uncomfortable the question may be, the thought is already in their head. It is much better 'we', as safe adults, take responsibility and tackle the question safely and age appropriately.

5. Staff will answer children's questions age appropriately. This will be done consistently across the school as follows:

- Children will be praised for asking questions. We wish to encourage children to seek answers from safe adults.
- If a question is relevant to the whole class, we will answer it to the whole group.

• However, as with any other subject, there may occasionally, be the need to differentiate depending on children's knowledge and experience. Some children may need additional information or support compared to others.

• If the member of staff doesn't have an answer or doesn't know, they will say so. There is no shame in not knowing the answer but the member of staff should make an effort to help the child to find the answer later.

• If the member of staff is not sure how best to answer a particularly tricky question, our suggested response is: "That is a brilliant question, I would like to give you an equally brilliant answer, so let me have a think about it and once I know the best way to explain it clearly I will come back to you"

• This will allow teaching staff time to think, seek help, advice or support from colleagues, or to speak to senior management.

• If a child asks a question we know parents may be uncomfortable with, staff may choose to delay answering the question (as above) until they have spoken to the parent/carer if possible and talk through their response.

• Teachers will answer questions, openly, honestly, scientifically and factually without relying on their own personal beliefs. Teachers will not be expected to answer personal questions about themselves or to ask direct personal questions of their students that could make either parties vulnerable.

## Equal Opportunities

All children have an entitlement to access the PSHE curriculum. All children will have access to appropriate resources within the school. These will reflect a multi-cultural society, without stereotyping or discrimination. All children will be given the opportunity to participate in all activities regardless of gender, race or ability.

# Community links

Working in partnership with parents and carers and with the wider school community is an essential element of PSHE. We seek to involve parents and keep them informed through our weekly newsletters, termly overviews and Parents' evenings. Parents are encouraged to come into school whenever they have any concerns or anything they would like to discuss with us. We foster links with the wider community through various activities such as our relationship with our local Church. We share experiences with the local community and invite them to join us at our open days and school fairs.

# Assessment, reporting and recording

Assessment is an integral part of teaching and learning. Its purpose is to highlight success and achievement, as well as identifying areas that need further support. This information will then be used to inform future planning.

1. The children's work is collated into a class floorbook. This will act as evidence of the work the children have been involved in and document their learning experiences.

2. These floorbooks are kept from EYFS, Year One up until Year 6 and can be used for teacher's summative and formative assessment against the statutory guidelines.

3. The person responsible for PSHE in schools will monitor progress and evaluate on the effectiveness of lessons and programmes of study regularly, using evidence from workbooks, discussions with staff and pupils as a basis for teaching guidelines in accordance with DFE guidelines.

4. The assessments that we make of pupil achievement do not imply that a pupil has 'passed' or 'failed'.

5. Teachers may also assess through the use of informal judgements as they observe them during lessons and at other times around school

#### Safeguarding Children

All members of staff who deliver any of our Health, Relationship or Sex Education Programme, have statutory training around safeguarding children and are all aware of our school's safeguarding policy and procedures in the case of a disclosure or suspicion of a safeguarding concern. It is our practice to review safeguarding procedures in team meetings before the programme is delivered. Furthermore, if relevant, there may be conversations around protecting and supporting children for whom some of this work may make them vulnerable due to previous safeguarding concerns, past child protection investigations, ongoing concerns or changes in family or living situations if these may be triggered by scenarios or topics in their planned lessons. We recognise that for children who may be vulnerable due to past or present abuse or changes in family situations, this type of work, whilst it may be sensitive, there may be needs to adapt the programme or offer additional support. It is also a protective factor in preventing further abuse, to help them make sense of their experiences and essential to help them develop skills and resilience to keep them safe in future.

#### Links with other policies

This policy links particularly to the following policies: Confidentiality, Sex and Relationships Education, Child Protection, Behaviour and Anti-bullying.

#### Subject review and monitoring

The PSHE Coordinator is responsible for monitoring the standards of children's work and the quality of teaching. The subject leader supports colleagues in the teaching of PSHE, by passing on information and ideas, and delivering staff training as appropriate. We also hold regular staff meetings to discuss current issues and to make staff aware of new initiatives, practices and resources.
